Stormshield SN910

THE SECURITY SOLUTION DEDICATED TO MIDSIZED ORGANIZATIONS AND LARGE AGENCIES REQUIRING HIGH-SPEED FIBER CONNECTIVITY (10GB).

PERFORMANCE AND MODULARITY

Offering 20 Gbps performance, the SN910 is able to adapt to your needs thanks to network modularity that combines port density (up to 16 ports) with 10GE fiber.

AUTOMATICALLY IDENTIFY APPLICATIONS ON THE NETWORK

Application control, installed on all Stormshield Network Security appliances, allows you to automatically identify applications used (local or web applications) by your coworkers thanks to a dynamic analysis of the contents of connections.

KEEP YOUR COMMITMENTS TO COMPLIANCE

Stormshield Network Security solutions are a key component in keeping your commitments with regard to standards or regulations such as PCI-DSS, HIPAA, ISO270X as well as complying with legislation on data protection.

KEEP TRACK OF MOBILE TERMINALS

With the identification of mobile terminals logged on to the information system, the use of such devices can be allowed or blocked during certain time slots, for certain users or groups to certain resources, or a stronger protection profile can even be applied.

IMPROVE THE SECURITY POLICY ACCORDING TO CONTEXT

Adapt the level of protection for a workstation or server according to the level of risk identified (security alarms generated or vulnerabilities detected). In security reports, select your risk mitigation strategy in just one click.

MID-SIZE BUSINESSES AND LARGE AGENCIES

Ensure the continuity of your business

All protection technologies needed for responding to the most sophisticated attacks are embedded in the entire range.

Stay in control of your internet usage

Thanks to advanced filtering and the management of quality of service, you can define the way you want the Internet to be used.

Manage vulnerabilities

Obsolete or vulnerable applications on workstations and servers are detected in real time.

Save time

The administration interface on Stormshield Network Security products has been designed to be ergonomic and intuitive in order to assist you in securing your corporate network quickly and with zero errors.
